

# DJABER KOUICEM

Genetics Researcher · M2 Genetics Student — Université Constantine 1  
Constantine, Algeria · +213 656 75 68 02 · kouicemdjaber0@gmail.com · djaberkouicem.github.io

## PROFILE

M2 Genetics student at Université Constantine 1 with hands-on laboratory experience in DNA extraction and PCR. Interested in molecular biology, genomics, and bioinformatics, with practical exposure to research environments through laboratory internships and field visits.

## EDUCATION

### M2 in Genetics — Université Constantine 1

*In progress · 2026*

### Licence (B.Sc.) in Biological Sciences, Genetics — Université Frères Mentouri, Constantine 1

*2025*

### Baccalauréat, Scientific Stream

*2020*

## LABORATORY EXPERIENCE & TRAINING

### Research Internship — Centre de Recherche en Biotechnologie (CRBT), Constantine

*One week · 2026*

Hands-on exposure to research laboratory workflows and techniques.

### University Field Visit — Cancer Control Center (CAC), Sétif

*One day · 2026*

University-organized visit to a clinical oncology research institution.

### University Field Visits — CRSP and CRBT, Constantine

*One day each · 2025*

University-organized visits to research and biotechnology centers.

### Certified Trainings — Assistant Pharmacist, Assistant Medical, Assistant Laboratory Technician

*3 months · Aspire Up Academy for Training and Consulting, Constantine · 2024*

## TECHNICAL SKILLS

DNA extraction · Polymerase Chain Reaction (PCR) · Laboratory safety and handling practices · General laboratory techniques (university workshop training)
